Read the following:-

etter from F.W. Stewart Esq.,C.I.E.,I.C.S., Collector of Bellary, Ref.C 2 No6453/32-A5 dated the 28th December 1932:-

Cnd. 44 of 6 Jan 33 with No 2 of, on 4-1-33

Reference.- Board's reference No.H 7568/32-1, dated 16th December 1932.

I submit the following proposals for the collection of the suspended revenue in Bellary and Siruguppa taluks.

(A)

2.) Bellary taluk.- In G.O.No.378 Revenue, dated 16th February 1932, the suspended revenue (half) of Fasli 1340

in all the 100 villages of Bellary taluk was postponed for collection in Fasli 1342. In 54 villages the collection of half or one quarter of the revenue of Fasli 1341 was post poned for collection in Fasli 1342 as specified below:-

G.O.No.	No.of villages.	1/2 Rev.	1/4 Rev.
Mis.621 dated 15-3-32.	1	1	
No.653 Press dated 19-3-32 and G.O. 944 Mis.,d/3-5-32.	37	6	31
No.944 Mis., dated 3-5-1932.	16	6	10
	54	13	41

The rainfall in the year 1932 was timely and sufficient for the sowings of both Mungari and Hingari crops and almost all the cultivable lands were sown. The total area cultivated up to the end of November 1932 was 3,39,209 acs. against 287,696 acres of the previous year. About one third of the total extent sown is covered with industrial crops as specified below:-

Groundnut	17,249	91,619 acs.
Cotton..	74,370	

and the remaining extent is covered with food crops. The mungari crops, Sajja, Cholum and Korra are being harvested and their outturn is 8-11 annas. The outturn of Sajja is poor in some villages as the crops were affected by excessive rains. The standing Hingari crops namely Korra, White cholum and Cotton are fair and they are expected to yield 8-11 annas and even more in some villages, as matters now stand. A statement showing the average yield of the crops both Mungari and Hingari in all the 100 villages and the amount of suspended revenue outstanding in each is enclosed. It shows that the average outturn is

As.	ps.		
6	2	in 1 village	(Somasamudram)
8	0	in 1 ,,	(Patrabudihal)
8 & odd.		in 22 villages	
9		in 7 ,,	
9 & odd		in 69 ,,	

It is explained that the low outturn in Somasamudram is due to the omission on the part of the karnam to bring to account a large extent of cultivation. The Tahsildar Bellary and Revenue Divisional Officer propose that the entire suspended revenue in all the villages may be collected. I inspected the crops in some villages in this taluk in November. The standing crops are fair and promising. I therefore recommend that the suspended revenue may be collected in all the villages as specified below:-

	Fasli 1340.	Fasli 1341.
100 villages. (Half the assessment	To be collected in two equal instalments in March and April 1933.	
13 villages (Half the assessment)		To be collected in 2 equal instalments in February and March 1933.
41 villages (one quarter assessment)		To be collected along with the February kist.

Cotton is harvested late and this is the principal crop which brings in money and enables the ryots to pay off the kists.

Siruguppa taluk- In G.O. No.Press 551 Revenue, dated 7th March 1932, the suspended revenue of fasli 1340 (half) in 65 villages was postponed for collection in Fasli 1342. There was good rainfall in 1932 in this taluk also. It was timely for sowing Mungari and Hingari crops. The Mungari crops have been cut and their outturn is 8-11 annas in all the villages except in Ulur and Kuriganur. In these two villages the Sajja crop was bad, Korra which was slightly better yielded an outturn of 4-7 annas, but groundnut yielded 8-11 annas. The Tahsildar estimates the outturn for both Mungari and Hingari crops as 8-11 annas. As regards Hingari crops, Korra is fair and has come up for harvest. White cholum and cotton are tender and promising. A statement showing the average outturn

in 65 villages and the amount of suspended revenue outstanding in each of them is enclosed. The average outturn is 9½ annas in 63 villages and 7 annas 8 pies in Ulur and Kuriganur villages. The Revenue Divisional Officer proposes that the suspended revenue may be collected in all the 65 villages. I recommend that the suspended revenue may be collected in all the 65 villages in two equal instalments in March and April as in the case of Bellary taluk.

Ry.17-18 CF

Reference.-

Submitted to Government in continuation of the Board's reference No.H 7568-32-1, dated 16th December 1932.

CNo 449/E/32 4/1/33

2. The Board supports the Collector's proposals which are summarised below:-

Taluk.	No.of villages.	Suspended revenue of Fasli 1340.	Suspended revenue of Fasli 1341.	Proposal.
Bellary.	100	One half.		To be collected in two equal instalments in March and April 1933 along with the kists of the current fasli.
do	13	-	One half.	To be collected in two equal instalments in Febry., and March 1933 along with the kists of the current fasli.
do	41	-	One quarter.	To be collected along with the February kist of 1933.
Siruguppa.	65	One half.		To be collected in two equal instalments in March and April 1933 along with the kists of the current fasli.

5.1.33

Secretary.

Revenue Department

84 Σ 33. Assessment – Land Revenue – Bellary) – Bellary & Siruguppa Taluks suspended revenue of fasli 1340-1341 Collection – Appeal

From the Board of Rev., L.R.B., H.7568-32-2 dated 5-1-1933.

To Under Secretary

A draft order is submitted for approval. It may be sent to Fin. for acceptance.

The proposals in another file now in circulation relate to other taluks.

6/1/33. – There are only 100 villages in Bellary taluk. So in 54 villages the arrears of f. 1341 will have to be collected in addition to the arrears of f. 1340.
